

Teaming Labs Presents:

# THE LION, THE MOUSE & THE MIRROR

A Virtual PowerClass about Power

**Intelligent Teaming** is about purposefully using the power of teamwork. Underlying team dynamics can limit intelligent teaming. When these issues arise, we often fail to recognise it as power dynamics or point fingers and place blame on our leaders. When it comes to intelligent teaming, however, every team member has the influence and responsibility to shape a supportive environment.

Teaming Labs' 'The Lion, The Mouse & The Mirror' is a PowerClass designed for both leaders and team members who are eager to explore the concept of power openly.

**"To create powerful teams, we must first understand power itself"**

## TEAMING LABS

*Teaming with Intent. Impact with Purpose*

Teaming Labs' PowerClass 'The Lion, the Mouse & the Mirror', is a virtual PowerClass about power. During its 120 minutes, you will explore the true meaning of power, rank, and range and connect those concepts to your real-work environment. True to being a PowerClass, you can expect much interaction and playful practice, both in small and big groups. Additionally, you will gain actionable PowerTools that allow you will be able to use immediately in your very next meeting.

**"The most common way people give up their power is by thinking they don't have any"**

*Alice Walker*

### This PowerClass will:

- Link power and rank to intelligent teaming
- Define power, rank, and range, and clarify how they are connected
- Explore where *your personal* power lies within *your* team
- Analyse how your power can affect your interactions and collaborations
- Introduce you to actionable power tools to *own* and *share* your power
