

# Teaming Labs Presents: TEAMING IN ACTION

## A live-virtual PowerClass about applying Intelligent Teaming principles and tools in real-time.

When it comes to teaming, understanding concepts is one thing—putting them into practice is another. Too often, we leave training sessions with great ideas that never make it to our real-world teams. Teaming in Action changes that.

This PowerClass is about rolling up your sleeves and applying what you've learned. Through immersive simulations, real-time experimentation, and guided reflection, you'll see Intelligent Teaming principles come to life. It's an opportunity to bridge the gap between theory and practice, ensuring you and your team leave ready to tackle dynamic environments with confidence.

Let's turn ideas into action and teamwork into impact.

*"Knowledge is only a rumour  
until it lives in the muscles."  
Asaro Tribe Proverb*

## TEAMING LABS

*Teaming with Intent. Impact with Purpose*

**Teaming in Action** is the capstone session of our Intelligent Teaming PowerClass series. Over 2 hours, you'll revisit Intelligent Teaming principles, and immerse yourself in a high-stakes Teaming Mission to tackle a novel and challenging mission as a team. Success depends on collaboration, adaptability, and the effective use of PowerTools.

This dynamic session blends hands-on experimentation, real-time problem-solving, and thoughtful reflection, equipping you with actionable insights to tackle real-world challenges with confidence.

*"Practice isn't the thing you do once you're good.  
It's the thing you do that makes you good."*

*Malcolm Gladwell*

## This PowerClass will:

- Reinforce key Intelligent Teaming principles and PowerTools.
- Immerse participants in a hands-on Teaming Mission simulation.
- Test and apply tools in real-time scenarios.
- Reflect as a group to uncover key lessons.
- Explore practical ways to adapt PowerTools to real-world teams.
